Commissioner Voorhis's Rebellion Gives Tammany Renewed Confidence.

E This is the last day of the political campaign, and to-morrow the result of the hot and bitter canvass which ends with to-day will be manifested at the polls.

All the hard work has been done and most of the minor details attended to, and the leaders are at present engaged with pencil and paper figuring out the result.

25,000 to 30,000, allowing a vote of from 80,000 to 85,000 for the fusion ticket. Five-eighths of this vote, he thinks, will be

contributed by the Republicans, the disgruntled County Democracy furnishing the balance. Police Justice Power smiled when this esti-mate of Chamberlain Croker was communicated

mate of Chamberian Croker was communicated to him.

"The reverse is true," said he. "We have figures which make us a winner, and the count to-morrow night will prove the correctness of my statement. Tammany never has, in an off year, cast the votes which she must have to-morrow to defeat our ticket, and she can't do it to-morrow." VOORHIS'S BEBELLION.

Tammany's rosy views are occasioned in great measure by the action of the Ninth District County Democrats, under the leadership of Police Commissioner Voorhis, in refusing to support the Republicans on the fusion ticket. The Ninth District Counties are all supplied with ballots minus the names of the Republican candidates.

This is a hard blow at the deal ticket, and has been met in the only way possible by the County Democracy Executive Committee, which has arranged to put a full corps of workers into the district to peddle the straight fusion ticket. TO PREVENT FRAUD.

Agreeable to the warning of Chamberlain Croker that it would be well to post the Tammany Inspector of Election to be alert in preventing any fraud at the polls through the possible collusion of the two Republican impectors and the County Democracy's representative, the reveral district leaders got their inspectors together yesterday and lectured them.

gether yesterday and lectured them.

It is for Senators that the hardest fight is being waged, and the outcome of to-morrow's battle in the Firth District, located in this city, will be looked for with great interest by air. Thomas C. Platt.

Col. hiurphy, the County Democracy caudidate who is indorsed by the Republicans against Col. William L. Brown. Tammany, had out 8,000 majority in the district two years are as the candidate of the United Democracy. Col. Brown, it is conceded, will have a hard fight to win against Col. Murphy, but Mr. Croker says that he will.

AHEARN IS SANGUINE.

In the Sixth District where, two years ago, County Clerk Edward F. Reilly was elected almost without opposition, there is another fierce and bitter battle raging between Thomas F. Grady, Tammany, and John F. Ahearn, County Democrat, with Republican indorse-

The Counties and Republicans last year polled in this district over two thousand more votes for Mayor than Mayor Grant received, so it will be seen that Ahearn starts with an advantage.

Grady's friends claim that in case Ahearn is elected they will protest against his taking his seat, claiming that he is, as Clerk of Essex Market Police Court, ineligible under the Constitution.

Two years ago the argregate of the opposition vote to George F. Langbein, the United Democracy candidate in the Seventh District, was 2,000 more than that he received. This, however, was made up in great-part of the labor vote which is now solid for George F. Roe-ch, the Tammany candidate, whose election over Frederick W. Diehl is confidently predicted.

On the election for Mayor last year there was the least margin of a majority for Grant for Mayor in the Ninth Senate District over Hewitt and Erhardt.

It is thought, highly improbable that W. J.

and Erhardt.
It is thought highly improbable that W. J.
Boyhan, the fusion candidate, will succeed
against Senator Stadler here. CANTOR'S HARD FIGHT.

Senator Jacob A. Cantor is making a hard fight for his return as the Tammany candidate in the Tenth District. Two years ago he had a majority of about 200 over the combined opposition. But at that time the County Democracy supported him.

if the County Democracy is true to its candi-date, Alston G. Culver, Senator Cantor will be re-elected, but it is expected that Culver, while the County Democracy leader in the Twenty third Assembly District, will bunch the ticket of Peabody, the Republican candidate.

IVES HAS NO WALK-OVER. Two years ago Engene S. Ives had a slight majority as the United Democratic candidate in the Eleventh District, James R. O'Beirne, the Republican candidate, polling within 2,000 yofes of the number cast for the young Tam-

manyite.
With another Democrat in the field and an acknowledged deal to elect the Republican caudidate, Alderman Carlin, Senator Ives has no walk-over, a though his friends are confident of his success because of the character of his Republican opponent.

Lost 85,000 on a "Gold" Brick,

[SPECIAL TO THE WORLD.]
WENCENNES, Ind., Nov. 3.—William Trafford. a wealthy farmer of Posey County, was swindled out of \$5,000 in cash by gold-brick windlers, and the particulars have just come to light. About a month ago a stranger called on Mr. Trafford, and after satisfying him that

on Mr. Trafford, and after satisfying him that he was a distant relative he revealed a scheme whereby each could make \$5,000. The stranger knew a man who had some gold bricks really worth \$20,000, but who would sell them for \$10,000, not knowing the value of them.

Mr. Trafford drew \$5,000 from bank and went to Evanswille with his new-found relative, where his conferate was with the bricks, and where they were assayed by a pretended Government official. The self-styled Government official was delighted and outhusiastic over the beauties. Both Trafford and his relative paid over the \$10,000 and took the bricks, but before forty-eight hours both bricks and relative were gone. Trafford received a note advising him to take no trouble to lock for his friend, as he was far beyond his reach.

To Death in Each Other's Arms.

CHARLESTON, S. C., Nov. 3.-The schooner Flora Rogers, which rescued the mate and four of the crew of the water-logged schooner Jennia Hoseline, from Savanuah for Providence, Oct 25, arrived off the bar this morning. The rescued men report that the gale caught them on Get. 27, north of Hatteras. They were driven to the Gulf stream, and their main and mivzeums to the Gulf stream, and their main and mivzeums. the house of Mrs. Johann Weiss, a midwife, at 225 East Forty-ninth street, to lay her out, and he had brought the bodies of woman and child to his shop, where they had been ever since, awaiting identification. If no one identified the woman to-day he expected to bury the bodies to-morrow at Linden Hill.

At Mrs. Weiss's the reporter learned that the dead girl called there about five weeks ago, one evening, with an undersized woman, who claimed to be her married sister.

Two weeks ago the dead woman called again and engaged two weeks' board and Mrs. Weiss's services, for which she paid \$55 in a lyance.

To Mrs. Weiss she gave her name as Ella Quin, said she was unmarried, but refused to tell where she lived.

Last Tue-day the sister again called, and on leaving said she would call again to-day. She has not since been seen.

She said she lived at Tenth avenue and One Hundred and Twenty-fifth street, and that her sister, the dead girl, had cooked for a prominent family on Madison avenue.

Thursday night the young woman was seized with convulsions. Dr. J. H. Ascu, of 770 f.exington avenue, was called in, but she died at 1 o'clock the next morning, after giving birth to a still-born haby.

For three days Mrs. Weiss has made diligent in quiry in the neighborhood of Tenth avenue and One Hundred and Twenty-fifth street, but has found no traces or tidings of the dead girl's sister.

The police of the Twenty-third Precinct were notified, but have not been able, to solve the mystery.

A young woman who is one of Mrs. Weiss's patients told the reporter that the deal woman had received a letter last Theesday inclosing \$19, which she said was from the man who had sent her there.

The envelope bore the postmark of station J and was mailed at 7.30 o'cock p. m. on Oct. 28.

If no one identifies or claims the bodies Mrs. Weiss will see that they are properly interred.

Dr. Asch signed the death certificate, which gives puerperal convulsions, aided by Bright's disease, as the cause of death.

VERY PARTIAL TO TURKEY.

But Emperor William Furnishes Taffy Instead of Cranberry Sauce.

CONSTANTINOPLE, Nov. 3 .- After his arrival at the Yildiz Palace yesterday Emperor William witnessed a parade of the troops in garrison here. The Emperor praised the excellent bearing of the soldiers, especially commending the appearance of the artillerymen. At the banquet given by the Sultan in the evening covers were laid for 100 guests. All the foreign representatives were present.

The popular welcome to Emperor William, both by the press and by the public, has been exceedingly flattering. The route taken by the imperial procession vesterlay was thronged with people, who gave the Emperor a most enthusiastic reception. Among the spectato was an unusually large number of women.

At the banquet Empress Augusta Victoria sa on the right of the Sultan and Emperor William on his left. The Sultan conversed in an animated manner with his quests. The dinner service was of gold. Twelve courses were served. A reception followed the banquet. To-day the Emperor and Empress attended service in the Protestant Church. Chaplain Koegel preached the sermon. The imperial visitors afterwards drove to the German Embassy, where they were entertained at luncheon.

After the luncheon the Emperor received several German officers and a deputation from the German colony here, the latter presenting an address. The afternoon was devoted to sight seeing, and in the evening the Emperor gave a banquet at the Yildiz Palace, at which many Turkish dignitaries were present. A re-ception followed, to which the staff of the German Embassy was especially invited.

A FEDERAL GOVERNMENT.

Australia Can Be Guided by Our Great Constitution.

SYDNEY, N. S. W., Nov. 3 .- Sir Henry Parkes, a circular letter to the Prime Ministers of the Australian colonies, after pointing out difficulties in the way of the creation of a federal army, gives in detail the objects of the convention recently proposed by him in a speech here. According to his plan, a convention of delegates from the various colonies would be held for the purpose of constructing a federal government on the basis of a federal parliament.

He further says that the scheme will necessarily follow closely the type of the Government of the Dominion of Canada, and adds that the delegates to the proposed convention will also be guided by the rich stores of political knowledge collected by the framers of the American constitution and by others since their time.

meeting on Wednesday evening last and five out of twelve balls were black the result was a genuine surprise.

It was at mist reported that Mr. King had not been blackballed, out that his name was laid over for future action, the explanation being that Mr. Morgan was not present to make the usual speech in Mr. King a benalf—a course which has always been considered necessary.

This rumor gave way later to the lacts of the blackballing, and after discussing the matter at some length the members present yesteriary decided to circulate a petition among the other members a-king that the action be reconsidered. The result of the petition is yet to be seen.

For some time past blackballing has been a feature of the Governing Committee, and among the refected would-be members are Lawrence Turnure, B. H. Bristows son, Hallett Borrowe, and several other prominent men about town.

Mr. Bristow's case was afterwards reconsidered. He is now a member of the Club.

"The first intimation I had of the matter was the publication in The World of this morning," said Mr. King to a reporter for The Evening World when the latter spoke to him about the action of the Union Club.

"Can you assign any reason for the action thus taken?" he was asked.

"None that I can think of at present, My name was prosented by Mr. Morgan and seconded by Mr. D. O. Mills, and it is so long ago that I had forcrotten all about it. At this moment I am at a loss to account for the Club's vote."

Touching Manifestation of Feeling by a

A well-known man who lives not far from Newcastle, Maine, told a Lewiston Journal reporter of an experience he had a few Winters since with a horse of which he was very fond. He was driving across Jefferson Pond one afternoon when the mare went through the ice. In an instant the sleigh also went under.

The gentleman managed to get out of the water himself after a valiant struggle, when, finding himself upon a firm footing, he

water himself after a valiant struggle, when, finding himself upon a firm footing, he turned his attention to the horse.

After a long time the assistance of two men was secured, and even then nearly an hour elapsed before the poor borse was rescued, thoroughly chilled and exhausted.

Not far off her owner had a friend who lived in an old-fashicnedihouse with a cellar kitchen He ied the more straight into this kitchen, where she lay down, gladly enough, before a big, biszing open fire.

Warm blankets were thrown over the poor creature, and hot drinks were given her. Then her owner, pretty well chilled and tired himself, passed into a bedroom on the same floor and soon fell asleep.

About midnight he was awakened by something passing over the bedckethes. He felt a a little startied. Then he felt a warm breath upon his face, and for the bare had come into the room to find her master and thank him, for she fell to licking his face gently.

Her owner was manly enough to own up that he was so touched that he cried over her. Finally he rose, led her back to the kitchen threw a big log upon the coals and down lay the intelligent mare while her master, silently registering a vow that the grateful creature should never pass out of his hands, returned to his own bed.

A Doubtful Story About Dr. Talmage Begging Money from St. Louis.

The story continues to come from St. Louis that a wealthy manufacturer of that city has been solicited by Dr. Talmage, paster of the Brooklyn Tabernacie, to contribute \$100,000 to the rebuilding of the burned edifice in consideration of having the new structure named for him. This story was denied by Dr. Talmage when it first appeared two weeks ago. Yesterday it was again circulated, with additional details, naming H. H. Culver as the wealthy St.

tails, naming H. H. Culver as the wealthy St. Louisan and \$100,000 as the sum for which Dr. Tailmage was willing to call the new church the "Culver Tabernacle." The rumor we et on to the effect that the offer had been accepted, but that Mr. Culver had been rer-maded to change his mind by the members of the church to which he belonged in St. Louis.

Br. Harrison A. Tucker, President of the Board of Trustees of the Brooklyn Tabernacle, was seen yesterday by a reporter of The Wonto, in the absence of Dr. Talmage, who is now on his way to Palestine.

"Some over-zealous person." said he,—" an admirer of Dr. Tailmage—may have sent a message to Mr. Culver in Dr. Tailmage's name. Such things happener when we built the old ediffice. I don't believe that Dr. Tailmage has sent any proposition of the kind named to Mr. Culver. I think I should have known of it if he had. Dr. Tailmage's denial of the first despatch ought to be sufficient. Besides, one telegram credited to Dr. Tailmage is alleged to have been sent Saturday, at which time he was on the ocean."

A BOTTEN WIRE, About 4.30 o'clock this morning one of the telephone wires, worn down by rust and wear, to the thickness of less than a sixteenth of an inch, broke and fell across the street, forming a down track of the Fourth Ave loop across the nue Railroad. The loop was charged with the

deadly high-tension current. At 4.35, long before it was light yet, cam along Thomas Whelan in his wagon, jogging

leisurely downtown. Whelan, who lives at 227 West Forty-sixth street, drives a wagon for Mr. White, of Avenue A and Fourth street, and had just delivered a last bundle of newspapers at ex-Alderman Murray's stationery store at Fourth avenue and Twenty-ninth street. THE HORSE CHOSSED IT.

In the darkness of the street—no electric lights were burning—they saw the car-track and the horse emitting fis-hes of but flame.

Wicked starks were sperfing here and there all about in unexpected places. BURNING PLESSE.

The horse did not stir. It was evidently already then stone-dead. The smell of burning flesh was percept ble half a block away. No w re was in sight; but the knowledge that the canger, though unseen, was very hear, made the men very careful.

They crossed the avenue, giving the horse and wagon a wide berth, and helped up Whelar. The driver was dazed, such and wear. He stood upon the curb with his reschers watching the pyrotechic display about the body of his horse, and cohisinering in fear and trembling the narrowness of his own excipe.

A crowd gathered and the avenue woke up. Windows were opened and heads thrust out everywhere with anxious inquiries what was the mailer.

It caught him across the forehead, knocking off his car and sending MacDonald to the parement, to all appearances as dead as if he had been shot down with a cannon. Roundsman Cassidy saw him fall and saw also the dash the wire emitted as it seared the flesh of the Sergeant's forehead.

It was out of the question, however. His head was covered with blood. Across his brow was the plain imprint of the wire, but the blood had flowed from a deet gash over the eye, received probably in the fall. The Sergeant watken to the station and an ambulance surgeon took him home after sewing up the gash over his eye.

The situation on the avenue was unchanged. The Sergeant's cap, which no one had dared pick up, lay on the track to point out where the danger might be met. It was after 5 o clock and the dead horse was still roasting slowly on the track.

LINEMAN WITH RUBBER OLOVES. LINEMAN WITH RUBBER OLOVER.

It finally occurred to some one to run around to the Marihattan Electric Light Company's shops in West Twenty-fifth street, and Foreman Knight came around with two linemen. Encased in rubber boots and gloves Knight sought long for the dangerous wire with a lantern, and finally found it. The horse was lying on the broken end.

Even after it was cut and pulled down from the pole the wire blazed and spluttered in the gutter for half au hour.

ELECTRIC WIRES DID IT.

FOREIGEN KNIGHT SAR HE ORDING THAT

FLECTRIC WIRES DID IT.

Foreman Knight gave it as his opinion that the e-ectric light wires thereabouts belonging to the United States and the East River companies, he believed, were not the cause of the trouble, but that the cross was some distance, perhaps many blocks away. The body of the dead horse lay on the track a while longer until the Fourth Avenue liairout men rolled it off. A deep furrow was burned by the thread-like wire in its hindquarters.

He said that he had pronounced the banns in ignorance of a previous marriage and that he should not perform the ceremony. The announcement produced a sensation which was increased to fever heat last evening, when it became known that Rev. J. B. Klein, a Protestant clergyman, had married the pair. They immediately left for Washington on a bridal tour.

87. Louis, Mo., Nov. 3.—Assistant United States District-Attorney Johnson, who is better acquainted with State politics and the party feeling throughout Missouri than any other Republican in St. Louis, said, after reading last Mor day's WonLD: "To begin with, I think the letter overdrawn, but I recognize the hold James G. B'aine has on the party, and I was his sup-porter until he declared that he was not a candidate. I do not see just how he could consistently, being a part of the Harrison Administration, become a candidate for President before the next Convention, but if he should be will come mighty near a nomination, and, if nomnated, he will sweep the country. The people are for Blaine-in fact, I thought that just prior to the last Convention they made fools of them-selves over him to some extent. I speak as a triend of Blaine and his warm supporter for
